MAAN GROUP

Empowering Minds, Building Future

OVERVIEW

Background of MAAN Group (Founded 2019, Mogadishu, Somalia). MAAN Group was established in 2019 in Mogadishu, Somalia, with a vision to empower individuals and businesses through strategic training, consulting, and professional development. Since its inception, the organization has played a crucial role in enhancing leadership, entrepreneurship, marketing strategies, and corporate excellence across various sectors.

MAAN Group is a dynamic consulting and training organization dedicated to personal development, business growth, and leadership excellence. Founded by Mohamed Salad, a renowned Motivational Speaker, and Corporate Trainer, the company specializes in empowering individuals and businesses through strategic consulting, tailored workshops, and expert coaching.

Founding Initiative & Purpose: The group was founded with the mission to:

- ✓ Bridge the gap between knowledge and practical skills in business and personal growth.
- ✓ Promote effective leadership and communication through engaging seminars and workshops.
- ✓ Support businesses with tailored consulting to optimize strategy, branding, and organizational structures.
- ✓ Foster student leadership and professional readiness among university graduates in Somalia.

Experience & Achievements: Since its launch, MAAN Group has successfully:

- Conducted transformative **training programs on Entrepreneurship**, Public Speaking, Leadership Development, and Marketing Strategy.
- Collaborated with businesses and institutions to enhance organizational efficiency and change management.
- Empowered professionals across Somalia through **consulting services** focused on success-driven strategies.
- Built a reputation as a trusted advisory firm committed to practical, **research-driven solutions for individual and corporate growth.**

Vision & Mission

- **Vision:** To be the leading consultancy and training firm in leadership development, organizational strategy, and professional excellence, creating impact-driven solutions for individuals and businesses.
- **Mission:** To educate, inspire, and empower professionals and entrepreneurs by providing comprehensive training programs, strategic consulting services, and transformational mentorship that drive success.

Core Services

MAAN Group offers a diverse range of professional development solutions, including:

1. **Consulting Services: Guiding Purpose, Powering Progress**

At MAAN Group, consulting is not just about strategy—it's about **understanding people, purpose, and potential**. Our approach is rooted in the belief that every institution and entrepreneur in Somalia and the wider Horn of Africa holds untapped potential. We partner with them not simply to give advice—but to co-create solutions, transfer knowledge, and build resilience that endures beyond a single project.

In a context where organizations are rebuilding from fragility, adapting to uncertainty, and aiming for regional relevance, MAAN Group brings clarity, direction, and confidence. We blend **local insight with global expertise**, helping institutions align their missions with the rapidly changing economic, technological, and social landscape.

2. **Training & Development: Inspiring Capability, Cultivating Confidence**

At MAAN Group, we believe that training is more than transferring knowledge—it's about unlocking human potential, igniting confidence, and preparing people to meet the future with purpose and clarity. In a country where formal learning is often disrupted by instability, and where practical skills are more valuable than ever, we deliver training that is relevant, engaging, and transformational.

We meet people where they are—from young graduates unsure of their career path, to experienced professionals seeking to lead in times of change. Our trainings are crafted not just to inform, but to transform mindsets, build soft and hard skills, and instill lifelong habits of learning.

3. **Capacity-Building: Strengthening Institutions and People**

MAAN Group's capacity-building programs are designed to equip institutions and individuals with the skills and systems required to thrive amid rapid change in Somalia, Africa, and the wider world.

We focus on modernizing public- and private-sector governance, developing agile leaders who can respond to challenges in climate, economics and security, and transferring cutting-edge knowledge through continuous training, mentoring and active-learning techniques. Every intervention is aligned with international best practice and the Sustainable Development Goals (SDGs), ensuring results that are measurable, accountable and socially responsible. Our primary beneficiaries—government ministries, NGOs, development agencies and universities—emerge with the competence and resilience needed to drive sustainable growth.

4. Research & Development: Turning Questions Into Change

At MAAN Group, research is not just an academic exercise—it is a tool for **amplifying unheard voices, challenging assumptions, and driving solutions that matter**. In a context like Somalia—where development decisions often outpace local data—our mission is to ground policy, practice, and innovation in **real stories, real struggles, and real potential**.

We ask difficult questions and listen with care. We believe research must do more than sit on a shelf—it must **move people, shape programs, and influence progress**. Whether we are working in a remote village or a ministry office, our goal remains the same: to bring clarity where there is complexity, and to turn evidence into action.

WHY CHOOSE MAAN GROUP?

MAAN Group stands out for its **commitment to excellence**, offering:

- ✓ **Expert-Led Training** with industry insights and practical applications.
- ✓ **Customized Consulting** tailored to organizational needs.
- ✓ **Proven Strategies** that enhance performance, innovation, and leadership.
- ✓ **Impact-Driven Results** that foster growth, development, and sustainable success.

MAAN GROUP' FOCUS: Empowering People with Purpose

At MAAN Group, our focus goes beyond offering business training or delivering polished presentations. Our true purpose is to empower minds and build futures. We believe that every person—whether a student, a public servant, or an entrepreneur—holds the capacity to grow, to lead, and to create meaningful change in their lives and communities. They just need the right support, the right mindset, and the right opportunity.

That's where we come in.

We specialize in delivering practical, real-world business and leadership skills that help individuals and organizations move from potential to performance. But we also believe in how people learn. That's why our programs are engaging, motivational, and fun—because people remember what they feel, not just what they hear.

- ✓ We don't just teach.
- ✓ We ignite curiosity.
- ✓ We boost confidence.
- ✓ We create momentum.

Why Our Focus Matters in the Somali Context

Somalia is rich in ambition. Across the country, young people are starting businesses, teachers are rebuilding classrooms, and local leaders are working to serve their communities—often in the face of limited resources and great challenges.

What many lack is not motivation—but access to structured knowledge, strategic thinking, and the tools to turn ideas into results.

MAAN Group fills that gap.

We provide training and consulting that is:

- ✓ **Practical –** rooted in Somalia's reality, not foreign theory
- ✓ **Relevant –** directly connected to what people need to succeed today
- ✓ **Relatable –** delivered in a way that speaks their language, values, and experience
- ✓ **Results-driven –** focused on real change, not just certificates

We live our slogan: *Empowering Minds. Building Future.*

Every session. Every strategy. Every handshake.

We aim to spark transformation that starts inside the person and extends to their team, their business, and their community.

MAAN Group's Unique Approach

MAAN Group bridges the gap between these consulting types, blending academic depth, business practicality, and ethical guidance into holistic training programs. This ensures that professionals and businesses in Somalia not only gain technical expertise but also cultural and ethical alignment, making learning effective, entertaining, and deeply impactful.

MAAN GROUP' core value

The instructors and executives of The MAAN GROUP believe that the following core values are the heart of our service and delivery. We strive to live up to these core values with every phone call, email, customer interaction, and interaction with the general public. Ultimately, our company was created to help people become more successful within their own careers and family. These values identify what we strive to create very single day!

Our Values Make Us Proud

Responsiveness. Our goal is to reply to e-mails and phone messages within minutes — not hours or days.

- **Quality.** All of our programs have been extensively tested to ensure a predictable outcome.
- **Cooperation.** The internal and external cooperation that is shown by our instructors has created a team-oriented atmosphere where it is easy for clients to gain help quickly from a variety of qualified sources.
- **Initiative**. Our qualified team of experts has the ability to make most decisions autonomously because they have shown good judgment and initiative throughout their own training process.
- **Continuous Improvement.** Our entire staff including executives, instructors, instructor trainers, and curriculum development managers are constantly looking for improvements to our processes and programs. As a result, our clients receive cutting edge technology in their training programs and consultations.
